

# ABB PRESCHOOL

## Procedures for When a Child is Unwell

- Parents are asked to keep their children at home if they have an infection, and to inform the Pre-school as to the nature of the infection so that the Pre-school can alert other parents, and make careful observations of any child who seems unwell. The Area Health Authority will be notified of any communicable or notifiable diseases.
- Parents are asked not to bring into Pre-school any child who has a high temperature or has been vomiting or had diarrhoea until at least 48 hours has elapsed from the last symptoms.
- If a child is unwell at Pre-school the parents will be called to collect their child, or if they cannot be contacted then the emergency contacts will be called. A member of staff will stay with the child and make them as comfortable as possible until the parent arrives.
